

BSB51415 Diploma of Project Management

At this level students will be able to apply project management skills and knowledge. They may manage projects in a variety of contexts, across a number of industry sectors. They have project leadership and management roles and are responsible for achieving project objectives. They possess a sound theoretical knowledge base and use a range of specialised, technical and managerial competencies to initiate, plan, execute and evaluate their own work and/or the work of others.

There are no specific entry requirements for this program, and it is targeted for domestic, corporate and industries for students wishing to obtain higher degree qualifications. The development of the program was with a consultation with industry advisors to respond to a need that has developed for additional educational vacancies for specialist Business industry positions that will benefit from Nationally Recognised Training.

Several units of competency require the use of a computer. **You are expected to supply your own device such as a laptop, notebook or pad** that is capable of Wi-Fi connectivity and loaded with the Microsoft suite of programs. As a candidate, you will be required to show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

The course is a pack of 12 units of competence consisting of 8 core units and 4 elective units. This course has been designed to suit the needs of those who wish to complete Business and work within the various Business sectors in various project management roles.
